## DETAILED ACTION

### *Information Disclosure Statement*

1. The information disclosure statement (IDS) submitted on September 27, 2005 is in compliance with the provisions of 37 CFR 1.97. Accordingly, the information disclosure statement is being considered by the examiner.

### *Claim Rejections - 35 USC § 102*

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims 1, 3-7, 10-12 and 14-18 are rejected under 35 U.S.C. 102(e) as being anticipated by Barcelou (US 6,945,457)

a self-service terminal for connection to a network (40), the terminal comprising:

--means for receiving payment from a user (52—cash acceptor) (see fig. 4, col. 4, lines 50-65), *as in claims 1 and 12,*

--an electronic payment mechanism for creating an electronic financial instrument for paying for an item purchased via the network, wherein the electronic financial instrument is independent of the payment from the user (see fig. 5, col. 4, lines 66 to col. 5, line 12), *as in claims 1 and 12*

-- wherein the means for receiving payment from a user includes a currency acceptance module for allowing a user to pay using cash (52—cash acceptor) (see fig. 4, col. 4, lines 50-65), *as in claims 3 and 14,*

Art Unit: 3624

--wherein the electronic financial instrument is selected from: a credit card payment, a debit card payment, a charge card payment, a stored value card payment, and an electronic check (see “smart card dispenser” (46), col. 4, ll. 50-65), *as in claims 4 and 15*

--wherein the electronic financial instrument comprises a credit card, (see “credit card,” col. 4, ll. 27-39), *as in claim 5*,

--comprising means for recording each electronic financial instrument created and transmitting a copy to a database for reconciling with transactions processed at that terminal,(see col. 4, ll. 31-33), *as in claim 6, 16 and 17*

--comprising a printer for printing out a receipt to confirm that the electronic financial instrument has been created and sent, (see “printer” (57), col. 5, ll. 8-9), *as in claims 7 and 18*,

--receiving from a user an indication of an item for purchase using the terminal see fig. 5, col. 4, lines 66 to col. 5, line 12);

--receiving from the user a first form of payment for purchasing the item (see fig. 4, col. 4, lines 50-65); and

--paying for the item using a second form of payment. A method of leasing a payment mechanism to a user of a self-service terminal (see “rental services” col. 3, line 54), *as in claim 10*,

--creating an electronic financial instrument for an amount to cover payment of a selected purchase, (see “credit card,” col. 4, ll. 27-39) *as in claim 11*, and

--requesting from a user sufficient funds to cover the payment, any postage, and a leasing surcharge (see col. 1, lines 29-39), *as in claim 11*

***Claim Rejections - 35 USC § 103***

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 2, 8, 13, and 19 are rejected under 35 U.S.C. 103(a) as being unpatentable over Barcelou (US 6,945,457) in view of Flenley (US 6,282,618)

Barcelou discloses the use of the Internet and a touch screen which provides for a wide variety of goods and services to be viewed (see col. 4, lines 50+), but fails to disclose a browser for enabling a user to browse sites on the network to select an item for purchasing from a merchant, *As in claims 2, 8, 13 and 19.*

Flenley discloses an ATM (fig. 2) that uses a browser (80) (see col. 5, lines 23-28). It would have been obvious for one of ordinary skill in the art artisan at the time of the invention modify Barcelou with the Internet browser of Flenley because an artisan at the time of the invention would have sought to use the notoriously old and well known Internet browser as an alternative to Barcelou's touchscreen to provide viewing and selection of various goods and services.
